

# NEWNAN

GEORGIA

A major player in the high-growth success of Georgia, Newnan has what businesses need to be a global competitor: ultra high-speed telecommunications, a superb location, an educated labor force and a local pro-business environment. More and more enterprises are taking advantage of this city's multiple benefits.

The Municipal Electric Authority of Georgia (MEAG Power) is a nonprofit, statewide generation and transmission organization. Recognized as one of the leading joint action agencies in the country, MEAG Power is among the top public power companies nationwide in terms of annual net generation, megawatt-hour sales and electric revenue. Its diverse, clean energy portfolio compares favorably with both the state and national averages.

Created by the Georgia General Assembly in 1975, MEAG Power provides reliable, competitive wholesale electricity to its 49 member communities (Participants), who own and operate their local electric distribution systems. MEAG Power also monitors and advocates on energy issues at the state and federal levels on behalf of its Participants.
