

AGENDA

2024 MAYORS SUMMIT

JAMES E. FULLER

PRESIDENT AND CHIEF EXECUTIVE OFFICER

Welcome to MEAG Power's 30th Mayors Summit

Thank you for attending the 2024 MEAG Power Mayors Summit!

For three decades we've been providing a unique forum for city leaders to come together to share experiences, compare notes and discuss important issues impacting our communities. We're looking forward to seeing you again this year, as there is much to discuss in an election year and at a time when energy demand is predicted to spike significantly.

We've put together a program of speakers that we believe you will enjoy hearing, and who will provide a number of valuable insights to take back to your communities. As always, we expect many shared learnings to result from the discussions among Participant Mayors and Board/Commission Chairs, and MEAG Power staff.

Please see the agenda below, and thank you for making this one of the highlights of our calendar every year.
