ADVANCED COMMUNICATION INFRASTRUCTURE

Access to a city-owned fully fiber optic telecommunications infrastructure that currently spans several counties with High-Speed Internet Service options up to 40000Mbps (40Gbps) from advanced communication infrastructure.

RANKED ONE OF THE LOWEST IN GEORGIA FOR OVERALL COST OF UTILITIES

- Natural gas, water, electricity, telecommunication, sewer and full-service solid waste utilities are community-owned and maintained.
- The City's activated sludge wastewater treatment plant is rated at 32 MGD, has approximately 10 MGD of unused capacity, and sewer rates consistently rank in the lower 25% for similarly sized and larger communities.

READY FOR OCCUPANCY/REDEVELOPMENT BUSINESS SITES

- Available low-cost industrial space
- Georgia Ready for Accelerated Development (GRAD) site
- Industrial parks served by fiber optic networks

ABUNDANT WATER

The Floridian aquifer supplies one of the world's most prolific sources of water, which translates into cost-efficient pricing for industry use.

The Municipal Electric Authority of Georgia (MEAG Power) is a nonprofit, statewide generation and transmission organization. Recognized as one of the leading joint action agencies in the country, MEAG Power is among the top public power companies nationwide in terms of annual net generation, megawatt-hour sales and electric revenue. Its diverse, clean energy portfolio compares favorably with both the state and national averages.

Created by the Georgia General Assembly in 1975, MEAG Power provides reliable, competitive wholesale electricity to its 49 member communities (Participants), who own and operate their local electric distribution systems. MEAG Power also monitors and advocates on energy issues at the state and federal levels on behalf of its Participants.
